

# Tableau Professional Services Expert Helpdesk

Our Expert Helpdesk delivers proactive live consultations, at the touch of a dial. Expert Helpdesk is designed for Tableau Desktop users that need flexible, incremental consultations on short topics like building and optimizing visualizations or training on specific features. Our experts will roll up their sleeves and help you get the job done quickly.

Tableau Professional Services make you more successful, faster.

## Overview

Our experts are armed with extensive Tableau knowledge, an expertise in deployment and analytical best practices. Our Expert Helpdesk consults on a wide variety of topics, such as:

- Interface, Components, Data Window, Views, Cards and Shelves
- Filters, Sorting, Groups, Hierarchies and Special Field Types
- Calculations and Parameters, Aggregations and Totals
- Bar, Line, Geographic, Scatter Plots, Cross tabs, Highlight tables, Heat Maps, Bins, Histograms, Motion Charts, etc.
- Shapes, Marks and Annotations, Reference Lines, Bands and Trend Lines
- Dashboard Highlights, Filter Actions, URL actions and Drill-Down
- Publishing, PDFs, Images and Sharing

## Details & Hours

Expert Helpdesk sessions are available in pre-purchased 12-hour blocks.

Purchased hours must be used within six months from purchase date. Any unused hours will expire.

## We're Experienced in the Ways of Fast

We're not just smart techies who know databases, IT environments, and software. We're also business people with practical experience using data and visual analysis to solve real business problems in record time.

We have the flexibility to deliver our services either in-person or remotely, and can group our offerings to fit your organization's specific needs.
